LETTER OF RECOMMENDATION

'FOX MAINTENANCE' 1391 London Road, Leigh On Sea, Essex. SS9 2SA

"A very professional job we could not have asked for more."

Fox Maintenance, headed up by Mr Richard Fox, makes a declaration on his website of -

"It was, and still is, our intention to always deliver whatever the client wants, whenever they want it, on time, and on budget."

In my eyes they achieve their intention and more! As the headteacher of a very large school, with an increasingly tight budget to manage and the difficulties of time management that works can be carried out in, I cannot recommend Fox Maintenance highly enough in meeting all our needs.

The 'Fox Team' are highly professional, polite, friendly and there to get the job done!

The mezzanine floor that has been erected and the staffroom and conference room that has been created is fabulous, and one I am extremely proud of. You just need to log on to the Facebook pages at Fox Maintenance to see the project being carried out. This again is testament to Richard and his team that they too are proud of their work and wish to share the journey each project takes.

From start to finish a very enjoyable experience watching our dreams become reality. As a school we have absolute accountability for providing value for money, Fox Maintenance were able to work to a very tight budget within a very tight timescale and produce an outcome of a very high specification. Communication was extremely good throughout the project for all concerned.

Fox Maintenance were a pleasure to work with and I would fully recommend them to future customers. We will definitely be seeking their talents and commitment again.

Mrs Lisa Clark, Headteacher

"Our expectations were more than realised by an extremely professional team."
